7.12 Without limitation, prior to the commencement of Outturn, the Customer must secure all necessary registration of the Storage Space as an "export establishment" within the meaning of the Export Control Act 1982 (Cth) and related orders and regulations (**Export Legislation**) (to the extent that this has not been done already by POPL) and in either case must ensure that the Storage Space is registered under the Export Legislation with the additional or ancillary functions or activities of, and with an approved standard operating procedure (**Approved SOP**) for, mobile bulk loading. For the avoidance of doubt, the:

- (a) Customer shall be responsible for formulating (and obtaining all requisite approvals of) the Approved SOP; and
- (b) The Auto Sampling System that has been fitted to and forms part of the Shiploading Equipment (Auto Sampling System) must form part of the approval to be given under the Approved SOP.

7.13 POPL confirms and agrees that it will provide reasonable assistance to and cooperate with the Customer if such assistance and cooperation would be required for the purposes of the Customer meeting the requirements under Clauses 7.11 & 7.12.

7.14 The Customer must ensure that the requirements of the Approved SOP are at all times met (including by the Customer Personnel).

7.15 Without limiting any other obligation under this Agreement, the Customer acknowledges that POPL shall enter into commitments to provide Service Slots for the Storage Space and the Shiploading

- 7.17** As defined in the Port Protocols, the Customer must deliver a Notice of Readiness (NOR) and Cargo Accumulation Plan (CAP) to POPL and other such evidence as POPL reasonably requires from time to time to verify the Customer's arrangements for the accumulation and delivery of the Grain to the Port in order to meet its obligations for Vessel loading of the Grain from the Port.
- 7.18** If the Customer fails to comply with any of its obligations under clause 7.17 and/or POPL, acting reasonably considers that the Grain will not be able to be completely loaded onto the Vessel by the end of the Services Slot, POPL shall consult with the Customer (and Other Customers that are the subject of subsequent Other Customer Commitments) on the best way that POPL may work with the Customer. After such consultation, and subject to this clause 7.18, POPL may amend the dates of commencement of both the Storage Slot and the Services Slot (**Customer Failure Amendment Notice**). POPL shall only exercise its rights under this clause 7.18 to the extent that such action is necessary to ensure that it is able to meet Other Customer Commitments having regard to scheduling constraints arising from Other Customer Commitments (as may be amended).
- 7.19** Where a Customer Failure Amendment Notice is delivered under clause 7.18, the commencement dates of the Storage Slot and the Services Slot shall be deemed amended to be the dates specified, respectively, in the Customer Failure Amendment Notice, but will, otherwise, be for the same durations specified in the Services Slot. Otherwise, all of the terms and conditions of this Agreement shall continue to apply.
- 7.20** The Customer acknowledges that the delays of Other Customers in performing their obligations under Other Customer Commitments in respect of which POPL grants rights to use the Storage Space and Shiploading Equipment prior to the commencement of, respectively, the Storage Slot and Services Slot (**Other Customer Delays**), may delay the availability of the Storage Space and the Shiploading Equipment for use by the Customer in accordance with this Agreement. Where this occurs, POPL shall be entitled, acting reasonably and having regard to the matters referred to in clause 7.10, by notice in writing to the Customer, to amend the dates of commencement of both the Storage Slot and the Services Slot (Other Customer Delay Amendment Notice). - 10.2** Unless otherwise expressly stated, the Charges and any other monetary amounts payable by the Customer under this Agreement are exclusive of GST, which must be paid additionally by the Customer at the same time that payment of the Fees or other amounts is due.

- 10.3** The Customer's obligation to pay the GST component of any consideration otherwise payable under this Agreement is conditional on it receiving a valid Tax Invoice in respect of the supply at or before the time payment for that supply is required under this Agreement.
- 10.4** If this Agreement requires a Party (First Party) to pay for, reimburse or contribute to any expense, loss or outgoing (Reimbursable Expense) suffered or incurred by the other Party (Second Party), the amount required to be paid, reimbursed or contributed by the First Party will be the amount of the Reimbursable Expense net of any Input Tax Credit to which the Second Party is entitled, plus any GST payable by the Second Party.

Where POPL sells all or any of the Customer's Grain for the purpose of enforcing its lien, the Customer irrevocably appoints POPL as its agent and attorney.
- 12.3** In enforcing a lien in respect of any Customer Grain, POPL will ensure that its actions do not affect the right of the Customer to receive the Outturn Entitlement under this Agreement.

13. Insurance and Risk

- 13.2** The Customer is solely responsible for insuring Customer Grain.

14. Liability

- 14.1** POPL excludes all legislated guarantees, implied conditions and warranties except any legislated guarantee, implied condition or warranty the exclusion of which would contravene any statute or cause any part of this clause to be void (**Non-excludable guarantee**).
- 14.2** Subject to clause 14.3 and except for breach of a Non-excludable guarantee, POPL shall not be liable under or in connection with this Agreement or any collateral contract (whether in contract, tort (including negligence), for breach of statutory duty or otherwise):

15. Acknowledgements and Exclusions

15.1 The Customer acknowledges that the Shiploading Equipment is ordinarily used by POPL for the loading of mineral sands and that the properties of mineral sands, and the Grain are inherently different and the Ship Loading Equipment has not been manufactured specifically for the purpose of the loading of Grain. From these differences, elements of uncertainty and risk arise in relation to ship loading performance.

15.2 Without in any way limiting clause 15.1, POPL provides no guarantees that the Ship Loading Equipment, Mobile Truck Unloader and Front-end Loader shall be free from residues, infestation, naturally occurring radioactive or other hazardous materials or any other contamination (**Contamination**), particularly having regard to the Ship Loading Equipment's usual use in respect of the loading of mineral sands. However, POPL confirms that the Shiploading Equipment, Mobile Truck Unloader and Front-end Loader will be thoroughly cleaned by POPL to reasonably eliminate the possibility of contamination by any remaining mineral sands in and on the Shiploading Equipment, Mobile Truck Unloader and Front-end Loader at POPL's own cost provided that the Customer is ultimately responsible for satisfying itself that Shiploading Equipment, Mobile Truck Unloader and Front-end Loader have in fact been cleaned in the manner required by this clause.

15.3 Where the Customer acting reasonably is not satisfied that the Shiploading Equipment, Mobile Truck Unloader or Front-end Loader have been cleaned in the manner required by clause 15.2, the Customer shall provide written notice to POPL (**Cleaning Remedy Notice**). Where POPL receives a Cleaning Remedy Notice given in accordance with the requirements of this clause, POPL shall provide additional cleaning services so that Shiploading Equipment, Mobile Truck Unloader or Front-end Loader are in fact cleaned in the manner required by clause 15.2 and the provisions of this clause 15.3 shall again apply once that additional cleaning has been performed. Without limiting any other provision of this Agreement, the Customer's sole remedy for any failure of POPL to provide cleaning services in the manner required by clause 15.2 is to require POPL to provide additional cleaning services.

- 15.4** POPL will ensure that the Shiploading Equipment, Mobile Truck Unloader and Front-end Loader has an operational and working auto sampling system (**Auto Sampling System**) to be inspected under clause 15.4(a) to demonstrate that the sample sizes being obtained during loading are sufficient and the DAFF Authorised Officer (AO) referred to in clause 15.4(a) inspecting the Grain would have enough sample to do such inspection **provided that** the Customer shall be responsible for:
- (a) Procuring all necessary inspections by an AO under the Export Legislation of all relevant loading equipment/infrastructure (including the Ship Loading Equipment, Mobile Truck Unloader and Front-end Loader) and sign-off that such equipment/infrastructure is approved for use in connection with the Grain and the supply of the Services.
 - (b) ensuring that the Grain ultimately loaded onto the Vessel is free of Contamination (including by conducting all necessary sampling and testing of trucks and throughout the ship loading process, in a manner approved by DAFF and/or any other relevant authority having jurisdiction, whether under the Export Legislation, the Approved SOP or otherwise; and
 - (c) satisfying itself that the Auto Sampling System during all periods of use is in fact operating in its intended manner.
- 15.5** Where the Customer acting reasonably is not satisfied that the Auto Sampling System is operating in the manner contemplated by clause 15.4(b) the Customer shall provide written notice to POPL (**Auto Sampling System Remedy Notice**). Where POPL receives an Auto Sampling System Remedy Notice given in accordance with the requirements of this clause, POPL shall repair the Auto Sampling System so that it in fact operates in the manner contemplated by clause 15.4 and the provisions of this clause 15.5 shall again apply once those repairs have been performed. Without limiting any other provision of this agreement, the Customer's sole remedy for any failure of the Auto Sampling System to operate in the manner contemplated by clause 15.4(b) is to effect repairs in the manner contemplated by this clause.
- 15.6** Except where such delays or claims directly arise from POPL's default or negligent act or omission, the Customer releases POPL from and agrees to indemnify POPL against all delays and claims arising from or in respect of the Contamination of the Grain, including any claims that may be made by third parties.

16. Indemnity

16.1 The Customer indemnifies POPL against all Loss arising from any:

- (a) delay in completing:
 - (1) the complete removal of the Grain from the Storage Space by the time of expiry of the Storage Slot; and

- (2) the complete loading of the Grain onto the Vessel by the time of expiry of the Services Slot,

howsoever arising, except to the extent caused by the negligence, default or omission of POPL or POPL's breach of this Agreement;

- (b) breach by the Customer of this Agreement; and
(c) negligent act or omission by the Customer or the Customer's Personnel.

16.2 Without limiting POPL's rights under the indemnity in clause 16.1 or, otherwise, in respect of the Customer's breach of this Agreement, the Customer agrees that, if it does not:

- (a) complete the removal of the Grain from the Storage Space by the time of expiry of the Storage Slot, it shall be liable to pay the Storage Space Fee pro-rated for each day of delay; and
(b) complete the loading of the Grain onto the Vessel by the time of expiry of the Services Slot, the Customer shall be liable to pay the Operating Services pro-rated for each day of delay.

17. Breach and Termination

17.1 A Party (**Innocent Party**) may terminate this Agreement by notice in writing to the other Party if the other Party (**Breaching Party**) breaches this Agreement and either:

- (a) the Breaching Party fails to remedy such breach within 14 days of receiving notice of such breach from the Innocent Party; or
(b) in the reasonable opinion of the Innocent party, the breach is incapable of remedy.

17.2 If this Agreement is terminated in accordance with clause 17.1:

- (a) termination will not affect the enforceability of any of the Innocent Party's rights or obligations accrued under this Agreement, which survive termination; and
(b) termination will not prejudice the Innocent Party's right to claim and recover damages or money under this Agreement or at law.

17.3 Clauses 1, 14, 15 and 16 shall survive the termination of this Agreement.

17.4 Without limiting clause 17.3, any clause which, by its nature, is expressly or impliedly intended to survive termination, shall survive the termination of this Agreement.

17.5 Where the Customer is in breach of this Agreement and without limiting POPL's rights under the preceding provisions of this clause 17, POPL may take whatever reasonable action it considers appropriate to remedy the breach or to mitigate the consequences thereof.

Without limiting the generality of the foregoing, with the written consent of the Customer, where the Customer does not complete the complete removal of the Grain from the Storage Space by the time of expiry of the Storage Slot or the complete loading of the Grain onto the Vessel by the time of expiry of the Services Slot, POPL shall be entitled to move the Grain to an alternate location (either within or outside the Port).

The Customer shall be liable for all of POPL's reasonable costs in direct connection with POPL taking any action in accordance with this clause.

18. Assignment

Each Party must not assign or transfer any of its rights or obligations under this Agreement, except with the other Party's prior written consent.

19. Force Majeure

19.1 For the purpose of this Agreement, a "Force Majeure Event" affecting a Party means anything outside that Party's reasonable control as defined in Clause 1.

19.2 If any Party is prevented, hindered or delayed from performing any of its obligations under this Agreement (other than an obligation to pay money) by an Event of Force Majeure (in this clause 19 called the "Affected Party") then, as long as that situation continues, the Affected Party shall be excused from performance of such obligation to the extent it is so prevented, hindered or delayed, and the time for performance of such obligation shall be extended accordingly.

19.3 As soon as possible after the Event of Force Majeure arises, the Affected Party must notify the other Party of:

- (i) the nature of the Event of Force Majeure
- (ii) the cause of the Event of Force Majeure
- (iii) which obligations the Affected Party believes it is wholly or partially precluded from complying with as a result of the Event of Force Majeure (as defined in this clause 19, called the "Affected Obligations")
- (iv) the extent to which the Event of Force Majeure precludes the Affected Party from performing the Affected Obligations
- (v) the expected duration of the delay arising as a result of the Event of Force Majeure
- (vi) the steps that are being taken to minimise the impact of the Event of Force Majeure, and
- (vii) the steps which would be taken (subject to the Parties reaching an agreement as to the payment of any additional costs involved) to minimise the impact of the Event of Force Majeure.

19.4 Upon receiving a notice under Clause 19.3 the Parties will meet to discuss and agree:

- (i) what action can be taken to minimise the effect of the Event of Force Majeure on the performance by the Affected Party of the Affected Obligation;
- (ii) whether the Affected Party is able to work around the Event of Force Majeure either to prevent the delay in the performance of the Affected Obligations or to minimise the impact of that delay; and

- (iii) the modifications to the terms and conditions of this Agreement or any other agreements between the Parties (including without limitation any modifications or additions relating to the appointment of any additional costs) are required to give effect to any proposal to minimise the effect of the Event of Force Majeure.

19.5 The Affected Party must keep the other Party fully informed of its plan to minimise the effect of the Event of Force Majeure and subject to reaching agreement concerning any modifications or additions required to give effect to any proposal to minimise the effect of the Event of Force Majeure, must:

- (i) comply with all reasonable requests made by the other Party relating to the prevention or minimisation of the impact of the Event of Force Majeure; and
- (ii) use all reasonable endeavours to resolve, and minimise the impact of, the Event of Force Majeure.

19.6 For the avoidance of doubt, an obligation to pay money to POPL is not excused by an Event of Force Majeure.

19.7 In relation to an Industrial Dispute, the requirement to use all reasonable endeavours to resolve or minimise its impact will not require either Party to settle any strike, lockout, boycott or other dispute or claim, or any demand by a third party, on the terms contrary to the wishes of that Party.

20. Dispute Settlement

20.1 The Parties will endeavour to resolve any Dispute concerning the terms of this Agreement between themselves, including where necessary escalating the Dispute for negotiation between senior representatives from both Parties.

If the Dispute is not resolved within ten Business days, the Dispute must, unless the Parties agree otherwise, be submitted to mediation whereby:

- (a) the mediator will be appointed by agreement of the Parties, or if not agreed, through appointment by the President of the Victorian Chapter of the Institute of Arbitrators and Mediators of Australia (IAMA)
- (b) the mediation will be conducted under IAMA rules, unless otherwise agreed
- (c) each Party will bear their own costs in relation to the preparation for and attendance at the mediation and will share the costs of the appointed mediator
- (d) the mediation will be held in Melbourne, unless otherwise agreed
- (e) the mediation process will terminate within 20 Business days of the appointment of the mediator.

- 20.2** During any Dispute resolution process, the pre-dispute status quo will continue. Accordingly:
- (a) each Party will comply with its obligations, and may exercise its rights under this Agreement; and
 - (b) the fact that a Party ceases to do anything in Dispute will not be taken to be an admission by that Party that it had breached, or had been in breach, of this Agreement.

A Party which has executed a counterpart of this Agreement or its legal practitioner may exchange it with another Party by sending a copy of that original executed counterpart by email or facsimile machine to that other Party or its legal practitioner and if requested by that other Party or its legal practitioner must promptly deliver that original by hand or post. This charge is a component of the Vessel Loading Fee.

Vessel Loading Fee

The vessel loading fee is charged per tonne and POPL will provide labour and infrastructure for the receipt of grain through a mobile truck unloading system as well as the loading of the vessel. The total charge is calculated following the completion of the vessel loading services and reduced by the pre-paid Slot Booking Fee.

If an Intent to Ship Application is received less than 30 days prior to the vessel arrival, then a late booking fee of \$0.50 per tonne in addition to the vessel loading fee is payable.

Accumulation, Storage and Out loading Service Fees

This storage throughput fee is a service charge for POPL to provide labour and mobile plant and equipment to receive, stockpile and outload delivered grain from the POPL storage facilities.

A storage fee is applied daily for each day grain is stored in POPL's storage facilities.

POPL storage sheds are subject to availability.

Additional Charges

Additional labour to be charged for a minimum of 8 hours during shiploading operations.

A flow path cleaning fee applies if an additional clean is required during the vessel loading due to infestation or commodity change.
